On August 23, 2023, an officer with the U.S. Probation Office in Spokane, Washington, reviewed a copy of the conditions of supervision with Mr. Villalobos. He signed the judgment acknowledging the requirements.

The probation officer believes that the offender has violated the following condition(s) of supervision:

<u>Violation Number</u>	<u>Nature of Noncompliance</u>
-------------------------	--------------------------------

9

Special Condition #2: You must abstain from the use of illegal controlled substances, and must submit to urinalysis and sweat patch testing, as directed by the supervising officer, but no more than 6 tests per month, in order to confirm continued abstinence from these substances.

Supporting Evidence: Oscar Villalobos allegedly violated this condition of supervised release by consuming methamphetamine on or about August 14, 2024.

On August 13, 2024, Mr. Villalobos left a voice mail on the undersigned officer's cellular telephone stating that due to a car issue he would not be able to make his random urinalysis scheduled for this date. On August 14, 2024, the undersigned directed Mr. Villalobos to provide a urinalysis at Pioneer Human Services (PHS). This sample was presumptive positive

On August 20, 2024, the urinalysis sample was returned confirmed positive for methamphetamine while also being diluted.

The U.S. Probation Office respectfully recommends the Court to incorporate the violation(s) contained in this petition in future proceedings with the violation(s) previously reported to the Court.
